1. Write on the collection tube (the one with the funnel adapter) your ID number and the date of collection.
2. Spit approximately 2 mL sample into the collection device.
3. Pour all of the DNA/RNA Shield™ solution into the collection device. **Warning:** DO NOT DRINK.
4. Remove and discard the funnel portion of the device and close the tube containing the samples with the cap of the solution bottle. Mix the sample by vigorously inverting it 10 times.
5. Place the tube containing the sample into a biohazard bag for shipping.
6. The specimen should be sent to the testing lab as instructed by the test provider.

Specimen preserved in the SalivaSecure™ Saliva Collection Kit are stable and can be **transported and stored at room temperature.** No cold chain required.
This product has not been FDA cleared or approved, but has been authorized for emergency use by FDA under an EUA for use by authorized laboratories;

This product has been authorized only for the detection of nucleic acid from SARS-CoV-2, not for any other viruses or pathogens; and

The emergency use of this product is only authorized for the duration of the declaration that circumstances exist justifying the authorization of emergency use of in vitro diagnostics for detection and/or diagnosis of COVID-19 under Section 564(b)(1) of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. § 360bbb-3(b)(1), unless the declaration is terminated or authorization is revoked sooner.

Warnings and Precautions

FOR EXTERNAL USE ONLY.

DO NOT drink, touch or remove the reagent from the vial.

- The DNA/RNA Shield™ reagent can be harmful if ingested and may cause irritation if exposed to the skin and eyes.
- If the contents of the tube contact your skin, wash the affected area with soap and water. If the contents of the tube are splashed in your eyes, immediately flush eyes with water. Notify your healthcare provider if irritation develops. If the contents of the vial are spilled, use a new collection kit.
- This product is intended for professional use or for use in POC. DO NOT use if the product is visibly damaged.
- Avoid mixing the reagent and sodium hypochlorite (bleach) or other strong acids and bases. These mixtures could release noxious gases. For specifics, consult product Safety Data Sheet (SDS)

H302: Harmful if Swallowed  H315: Causes Skin Irritation  H319: Causes Eye Irritation
